

## REPUBLICAN EXECUTIVE COMMITTEE.

Wilmington, O., June 18 1899.

Supt. U. S. Mint  
Philadelphia Penna }>

Dear Sir:

I enclose five coins which, one year ago, I found in digging in the accumulated rubbish near the site of Solomon's Temple, at Jerusalem. Will you, or some one connected with the mint, kindly inform me what they are? I know this is not a part of your duties but I am anxious to know something in relation to these coins, and so run the risk of putting you to some trouble in order that I may be satisfied. You may retain one or two of them if you wish, and mail the others to me if not too inconvenient to you. I knew of no other place where I could hope to obtain the desired information.

Very truly

Orange Frazer.

PS The Syrians called these "Mites".
